MOUNTING INSTRUCTIONS

Grommet

- Cut a 4-1/2" hole in the vehicle if needed.
 - Push rubber grommet into the hole until it seats.
 - Feed the light wires through the hole and connect to the wire harness in the vehicle.
- NOTE: Connector on the light is designed to mate with an AMP Sure Seal Connector.**
- Push the light into the grommet until it seats.

Snap Flange

- Cut a 4-1/2" hole in the vehicle if needed.
 - Push the light into the rear of the snap flange until it SNAPS.
 - Connect the light to the wire harness in vehicle.
- NOTE: Connector on the light is designed to mate with an AMP Sure Seal Connector.**
- Align the light and snap flange assembly to the hole and secure it to the vehicle with screws.

Integrated Flange

- Cut a 4-1/2" hole in the vehicle if needed.
 - Connect the light to the wire harness in vehicle.
- NOTE: Connector on the light is designed to mate with an AMP Sure Seal Connector.**
- Align the light assembly to the hole and secure it to the vehicle with screws.

NOTE:

If this light is to be used in a steady mode operation for extended periods, there may be some degradation of output intensity over time.

WARRANTY

Except for our limited warranty, available on our website at www.soundoffsignal.com, a hard copy of which can be obtained from SoundOff Signal upon request, all other guarantees or warranties including the implied warranty of merchantability and the implied warranty of fitness for any particular purpose are void and of no effect, unless specifically agreed to in writing by SoundOff Signal.
