### SAE Certified Mid-turn Marker Lamp

Light only: #ECV061MTY-T

w/ Rubber Grommet: #ECV062MTY-T

## Features

- Introducing our SAE Certified Mid-turn Marker Lamp which complies with SAE J575, J578 & J2039 standards for vibration, moisture, corrosion, warpage & chromaticity
- Lamp is made with a high impact polycarbonate lens, black polycarbonate base. Includes connector & neoprene gasket.
- UV stabilized lens resists fading
- Available with or without black rubber grommet for recessed mounting if needed: SAE Mid-turn Light only #ECV061MTY-T, SAE Mid-turn Light w/ Rubber Grommet #ECV062MTY-T
- Very easy to install - requiring just two drill holes
- Available in Amber Lens with Yellow LEDs only
- Reverse polarity protected
- Made with 6 total LEDs: 3 - Gen3 LEDs clearly illuminate Turn Signal function while 3 - Gen2 LEDs power the Marker function
- Reliable LEDs are resistant to vibration & long-lasting, no more bulbs to stock & change

Three Gen3 LEDs brightly illuminate Turn Signal function to meet SAE certifications.

#ECV062MTY-T

Available with or without Black Rubber Grommet for recessed mounts.
