

Pinnacle™ LED Windshield Lightbar

#EPL8000WS

Lightbars are custom ordered to your specifications, see website for order form, www.soundoffsignal.com.

(Dodge Charger model shown)

- **Universal model with adjustable mounting brackets** accommodate most windshield angles for even greater compatibility with different vehicle models & years

- **Many vehicle specific models** currently available for Dodge Charger, Chevrolet Caprice, Impala & Tahoe, Ford Crown Victoria, Expedition, Explorer & F-150 trucks (see website for complete product specs)

- **Custom ordered for your vehicle** in Amber, Blue, Green or Red LEDs (see website for order form)

- **Up to 2 LED Take Down modules** can be designated in your choice of position on the bar

- **Built with our exclusive "Fusion Technology"** optics that disperses an even distribution of light with a super wide angle output

- **Lower profile than competing lightbars** with less overall windshield obstruction & smaller footprint

- **Compatible with the DAS Switch**, see page 25

Smaller footprint than competitor interior lightbars

EPL8000 is the smallest, tightest fitting interior lightbar with no flashback and no obstruction (Ford CV shown).

Red/Blue split color lightbar shown on an undercover Chevrolet Caprice. Intersector™ & GHOST™ also shown.

Universal Mount Model

Universal Bracket model with adjustable mounting to accommodate many vehicle windshield angles.
