

intersecor™

by SoundOff Signal

- **Patented design, the first light of it's kind to offer critical intersection warning AND side warning**
- **Design of light is based upon problem solving research** - 50% of all emergency vehicle crashes are likely to occur at dangerous intersections
- **No other light offers 180 degree output** - specially designed reflector amplifies & throws the light at the perfect angle to increase visibility at intersections & offer side warning
- **Unique under mirror mount simplifies installation** - labor saving light is much easier to install than traditional front mirror skull mounts - no mirrors to work behind or around
- **New! Now can be custom ordered to your vehicle specification** to include only required adaptors for your vehicle - see web for order form (standard single light kit still available, part number shown on opposite page)
- **Variety of Adaptors for versatile mounting under many types vehicle mirrors** including Chevrolet Caprice, Impala & Tahoe, Dodge Charger, Ford Crown Victoria & Explorer & a variety of SUV & truck mirrors
- **Light can be surface mounted to any flat area** - mount to push bumpers, motorcycle engine fairings & boxes, ATVs, truck headache racks/cab protector
- **Features Cruise Mode for steady burn if desired**
- **Designed, engineered & built in Hudsonville, MI**

Unique mount & special design angles & amplifies the output for heightened visibility at intersections.
