

nERGY™

400 series

SIRENS

SoundOff
Signal 
Smart Design.

nENERGY™ sirens offer the most versatility and best value on the market today.

The 400 Series feature a variety of models to meet your specific application needs: console, handheld and remote versions. The nERGY Siren offers both a 100 watt and 200 watt version for each model. This unique versatility allows you to match your specific performance and pricing requirements with the ultimate siren solution.

console

Knob Console Siren

100 Watts #ETSA481CSR 200 Watts #ETSA482CSR

Button Console Siren

100 Watts #ETSA481CSP 200 Watts #ETSA482CSP

Unlike other competitors, nERGY offers two console versions. One version has a five position rotary switch and the other features a four push button switch.

Our pioneered **dual-tone feature** is inclusive in all **nERGY 200 watt sirens** versus only a single model.

This unique advantage allows for **two individualized siren tones** to be sounded at the same time.

Two speakers are required with the nERGY 400 Series 200 watt version sirens.

All of this capability
with the **best value**
on the market!

400 series

console | handheld | remote

handheld

remote

Handheld Siren

100 Watts #ETSA461HPP 200 Watts #ETSA462HPP

13 Feet Coil Cable Length

100 Watts #ETSA461HPP-EXT 200 Watts #ETSA462HPP-EXT

Provides unique advantages unlike any product on the market today: LED, Alley and Arrow handheld switch indicators for convenient viewing and extensive programmability.

Remote Siren

100 Watts #ETSA481RSP 200 Watts #ETSA482RSP

Officers value the sound intensity of the dual-tone feature "fooling" perpetrators into believing multiple police vehicles are in pursuit.

siren features

- » 200 watt sirens feature dual-tone capability to deliver two siren tones at once to provide officers with extreme "traffic moving" capability
- » Designed with extra large buttons with appropriate spacing to eliminate buttons to be accidentally pressed
- » Horn ring scroll provides ability to quickly change tones with the tap of the horn
- » Provides up to eight 10 amps and three 20 amp outputs with internal fuses for powering solenoids (i.e. gunlock) or supplying power and signaling to other onboard peripherals (printer, radar, GPS, etc.)
- » Built-in protection against over/under voltage, short circuit and reverse polarity
